Heifers were very good to handle. Only a couple showed any run and most drafting was conducted by one person. Filed down race and onto draft nicely and heifers wandered up and down fence line whilst photoing and videoing.

Handled With	Aerial (Helicopters, gyro's and planes) , On foot , Vehicles
Assessor Comments	A very well bred draft of Angus heifers rarely offered to market at this age. Vendor has a strong focus on genetic improvement, employing an AI program for a number of years with this draft featuring Landfall & Millah Murrah sires. The cow herd is very good, deep bodied, good bone in a medium to large frame. Heifers have had their second 5-in-1 vaccine, a tail has been removed, and they present in principally healthy store condition. Grassfed eligible, these heifers will fit in to any breeding or feeding program and will perform on grass or grain.
