| Assessor Comments | A line of Charolais Cross and 1 Wagyu X Cow PTIC to an Angus Bull. At Assessment the Cows weighed from 510-634kg to average 558kg full with a projected delivery weight of 530kg. The cows have just had quality weaners removed off them in the last month and are only being sold to reduce numbers before Winter. Cows are 6/7 years old and were running with the Angus Bull from the 1st of October 24 to the 23rd December 24 and therefor are preg tested 3.5 - 5.5 months in calf. The Vendor is happy to remove the Wagyu Cow from the mob if the successful purchaser would like it removed. Please note the Vendor has another line of Cows in the same sale. |
