| Assessor Comments            | Buyers, on offer is a very smart draft of Composite x feeder lambs. Lambs were sampled weighed 36-50 kg after a large tail was removed from the mob prior to assessment. Lambs are currently receiving 1 kg of DDG pellet daily and are presenting in forward store condition. This is a reluctant sale due to seasonal conditions as these lambs appear to be marching forward and will make kill weights with not a lot more effort. Majority of these lambs are shorn in Jan however there is the inclusion of a small % of late shorn lambs. Buyers can bid with confidence please call with any questions. |            |                   |
