	Slightly Stirry: 1 head	Slightly Stirry: 1 head	Temperament not assessed in

Heifer did get slightly anxious when worked on her own, however settled when in a larger mob.

Handled With

Bikes , Dogs , Horses , On foot

Assessor Comments

A rare opportunity to secure a quality registered female with plenty of power in their pedigree, on account of Crescent Nine Limousin Stud. The Crescent Nine females display outstanding quality both genetically and phenotypically. The females display the renowned Limousin traits of muscling, meat yield and weight for age, while also displaying softness and bone. Vendor maintains a commercial focus within the herd to uphold fertility, functionality, and a quiet temperament. These females are on offer due to no fault of their own and are only available due to a change of breeding direction, therefore a genuine Limousin stud herd reduction. An opportunity to secure some rare genetics in this powerful young PTIC heifer! See video and photos for further description and pedigree.
