Assessor Comments	A good line of NSM Angus Heifers with their 1st CAF by the Angus bull. These heifers were purchased from the Harold Curry Feature Weaner sale in 2024 and joined to the True North Angus Bulls. Following a 14 hour dry curfew these heifers weighed 351kg to 558kg to average 447.4kg (2 heifers under 400kg - milk teeth) with the calves weighing 59kg to 200kg to average 92kg (curfewed). Vendor uses low stress management practices and this shows in the cattle. Great opportunity to purchase units with their life in front of them and ready to be joined in line with your calving. Vendor has another line in same sale.
