|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments | A small line of young Hereford Cows with CAF by the Angus bull. These cows were purchased from the Harold Curry Feature Weaner sale in 2024 and joined to the True North Angus Bulls. Following a 14 hour dry curfew these cows weighed 395kg to 542kg to average 453kg with the calves weighing 63kg to 98kg to average 79kg (curfewed). Vendor uses low stress management practices and this shows in the cattle. Vendor has another line in same sale. |
