Assessor Comments

A very quiet mob of Angus PTIC heifers. These heifers are Gilmandyke blood and have been Joined to a LBW Bannaby Angus Rocket Man son U21. Heifers were pregnancy tested 4-6 months in calf by Vet Jack Holman. These young females will present in forward store to prime condition. With the temperament of these cattle they would make an ideal inclusion to any herd matter the scale. A nice line of Angus heifers in calf to a top quality sire
