Assessor Comments
A very quiet mob of Angus heifers and Calves. These heifers are Gilmandyke blood and have been Joined to a LBW Bannaby Angus Rocket Man son U21.12 of these Females were pregnancy tested 2- 5 months in calf by Vet Jack Holman. Calves are by a Heavy muscled Santa Gertrudis bull and have been marked and mothered. These young females will present in store condition and are doing an excellent job raising their calves. With the temperament of these cattle they would make an ideal inclusion to any herd matter the scale. A nice line of Angus heifers with Santa calve predominately in calf to a top quality sire.
