Notable Traits

	Traits
1 Head	Old blue eye ScaRring

Assessor Comments	A Lovely line of Hereford PTIC heifers. Heifers are predominately Iron Bark blood with a Mawarra Hereford Sire introduced into the herd. Heifers are in predominantly in calf to a Kywarra Angus LBW bull R22.These Hereford heifers are displaying excellent pigment, stretch and growth and will make ideal matrons for the future. This is an excellent opportunity to secure the best of 30 years of breeding with these heifers being the tops of the drop. All heifers were dehorned as calves with most heifers showing signs of scurs. A reluctant sale due to the drying season heading into winter.
