	Heifers handled well at assessment, heifers moved off assessor well and flowed through yards, you would say these heifers are very Quiet.					
Handled With	On foot , Vehicles					
Notable Traits	Traits 1 Head Old blue eye ScaRing					
Assessor Comments	A Lovely line of Hereford PTIC heifers. Heifers are predominately Iron Bark blood with a Mawarra Hereford Sire introduced into the herd. Heifers are in predominantly in calf to a Kywarra Angus LBW bull R22. These Hereford heifers are displaying excellent pigment, stretch and growth and will make ideal matrons for the future. This is an excellent opportunity to secure the best of 30 years of breeding with these heifers being the tops of the drop. All heifers were dehorned as calves with most heifers showing signs of scurs. A reluctant sale due to the drying season heading into winter.					
Assessor	Marcus Schembri (Level 1 Accredited)					
Delivery Period	03/05/2025 to 09/05/2025 (7 days)					
Delivery Point	Approximately 16 Km South of Blayney off the Hobby's Yards Rd. 3km west of the Village of Barry Lat: -33.6466687 "S Lng149.2712435 " E
