Assessor Comments

Buyers, on offer is a 3in1unit of 12 x 12. Cows are PTIC to Granite Ridge Angus bulls, due to calve in September / October with their third calf (BUYERS PLEASE NOTE that 1 cow was undetectable at preg testing, with only 11 showing detectable as in calf. Preg tested on 31/03/25) . These females averaged 569kg at assessment and were a pleasure to draft and assess. At only 3 years of age this is a great opportunity to purchase young, fertile females with calves at foot re preg tested back in calf. Calves are MillWillah blood, October / November drop and averaged 193kg at assessment. The 6 steers and 6 heifer calves have had 2 x 5in1 injections and are marked. With all the hard work of joining and calf marking done these cows are well bred, mature cows that have and will continue to produce quality calves.
