Temperament	Yards Crush Paddock Quiet: 8 head Quiet: 8 head Temperament not assessed in

Slightly Stirry: 7 head
Stirry: 5 head

Slightly Stirry: 7 head
Stirry: 5 head

Paddock

Cows were easily handled around the yards and force at assessment with some "scrumming" in corners to avoid limited pressure from handler/s. Cows were not aggressive, they do get nervous when isolated from the mob showing stirry characteristics and have a 4-5m flight distance. Once cows were removed from yards onto hay they acted rather docile. Cattle worked by single owner and are used to that. Cattle better suited to experienced handlers. Video attached.

Handled With

Bikes , Vehicles

Notable Traits

Traits

1 Head Cracked hoof (not lame)
1 Head Old eye scaring
5 Head White on udder

Assessor Comments

Well bred PTIC Rennylea & Dunoon blood cows joined to Dunoon R453 with huge IMF +5.7 and big growth 200-600 day growth (bull data attached) and Rennylea M876 son backup. The vendor has taken great pride in selecting well above average growth and carcass traits - purchasing sires from Rennylea and Dunoon bull sales with 18 years strong bloodlines. Cows are rising 5 years with only one head rising 6yrs of age and are only being offered due to deteriorating seasonal conditions. These cows are renowned to produce top end feeder cattle. Please call for more information.
