Quiet: 15 head Slightly Stirry: 2 head	Quiet: 16 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Cattle were a pleasure to work with during the assessment. The calves drafted off the cows with ease and all cattle walked through the draft and crush with limited pushing. 2 cows became slightly agitated when drafted off their calves but quickly settled once rejoined with the mob.

Assessor Comments	Offering a fantastic opportunity to buy a well presenting 3-in-1 PTIC cow with calf at foot package. Cows are currently in calf to the Stoney Point bull Q009 with a 10 week joining period due to calve October. These sappy calves presenting with plenty of frame and stretch were AI' bred by Clunie Range Queenslander with this bull being a trait leader in the angus breed for 200 and 400 day weights. These are a cracking article with all the hard work already done for the successful purchaser. A fantastic opportunity to wean big fresh calves add cows to an existing breeding program. Grassfed only, antibiotic free.
