Pregnancy Terms	13 Head (100%) PTIC, from 5 to 6 months (at time of assessment 29/04/2025). Certificate Available.		
Temperament	No Pregnancy Terms apply.		
	Yards	Crush	Paddock
	Quiet: 12 head Slightly Stirry: 1 head	Quiet: 12 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Cows are exceptionally well mannered and a pleasure to work in the yards. They calmly walked into the crush and showed no discomfort when being weighed. 1 cow became slightly agitated when being weighed and assessed, however quickly calmed down when rejoined with the mob		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 3 Head Long Toes		
Assessor Comments	The Floyd family of Glenrowan are offering a superb line of 13 Angus PTIC Cows due to being surplus to requirements. Cows have been joined to Jarabee Beastmode T182 and TR555 Powerplay bulls and are due to begin calving early August. With over 50 years of breeding, cattle comprise of top-end angus genetics, with a heavily infused Rennylea and Conamurra Angus blood cow herd. Sires are purchased with emphasis on high growth rates, temperament and structure as the program aims to produce cattle that are structurally sound, good temperament and good 200 and 400 day weights which would be suitable for feedlots. Cattle are highly sought in the area by repeat buyers due to the consistency of the product produced by the breeding operation. A perfect article for the producer wanting to start or to add to an existing breeding program. Grassfed only, antibiotic free.
