Assessor Comments	Offering a quality line Connamara and Adameluca blood Angus heifers and calves, doing a great job on their first calf at foot sired by Jade Park Angus bulls. Heifers were originally purchased out of the Yea weaner sale as vendor bred heifers. They are putting everything into their sappy calves at foot. They have the frame and structure to fill out into nice roomy types once given the opportunity to feed. Buyers please note these heifers have plenty of room for growth being only rising 2 year olds. Heifers received a drench and multimin in February and the calves have been marked for buyers convenience.
