Assessor Comments	A well-bred line of middle-aged Hereford cows, PTIC to low birth weight Riga and Fernhill Angus bulls. These females are in the prime of their productive lives — structurally sound, with plenty of frame and capacity to thrive in any herd environment. Freshly weaned and still in their working clothes, these proven breeders have already demonstrated their maternal ability. With strong genetics behind them and years of productivity ahead, they represent an excellent opportunity for those looking to establish or expand a quality breeding herd.
