	Traits	
1 Head	Broken tail	

Assessor Comments	A line of 39 No.4 Droughtmaster steers that would be excellent steers to put onto crop or grass and further background or fatten. These steers are very well handled and excellent to process, as seen in videos. Bred and grown on costal country these steers have good bone and length. Sired by high quality Droughtmaster bulls and out of medium to large framed Droughtmaster cows. These steers are either home bred or 1 brand of purchased in Droughtmaster steers which have very similar genetics and have been backgrounded with home bred steers. Overall a excellent opportunity to purchased a quiet, very even line of Droughtmaster steers.
