Vendor Comments	Part of annual turnoff of weaners.

Joining Details	Not Station Mated
Other Joining Details	Would expect not many of these heifers to have joined up due weight & age.
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 04/05/2025
Joining Access Details	Heifers have been running in paddocks with cows that are continuously joined.

Temperament

Yards	Crush	Paddock
Docile: 11 head Quiet: 102 head Slightly Stirry: 40 head Stirry: 13 head	Docile: 9 head Quiet: 92 head Slightly Stirry: 48 head Stirry: 17 head	Temperament not assessed in Paddock

Weaners flowed through the yards well at assessment being handled through draft prior to assessment. The odd Heifer stirred under pressure in smaller yard and in crush but settled straight away once back with mob. Overall weaners handled well and will continue to improve with more education to be given prior to delivery.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments	Buyers here is an opportunity to buy 166 (4 decks) PCAS eligible light weight Droughtmaster & Droughtmaster X heifers that present in fresh to store condition & best described as being medium to large frame subject to age. Heifers have been weaned in two stages with 50% weaned over the last week being fed hay in yards and the other 50% weaned in March being tailed out with bikes, horses and dogs. A reputable line of heifers that show plenty of bone, length & frame that are ready to grow out on improved pasture or fresh grass. This line of heifers would suit both backgrounder for feeder weights or future breeding. Buyers please note that there a 3 family marks on these cattle but have all been bred on the property. Lightweight heifers that will go ahead quickly.
