Weaners flowed through the yards well at assessment being drafted prior to being put up the race to be weighed. There were a few weaners that stirred in the crush or in smaller yard with pressure but settled once back with the mob. Overall weaners handled well.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	Buyers 3 Decks of PCAS eligible lightweight Droughtmaster & Droughtmaster X weaner steers that present in fresh store condition & are best described as being medium to large frame. Steers have been weaned in two stages with 50% weaned over the last week being fed hay in yards and the other 50% weaned in March being tailed out with bikes, horses and dogs. Steers show plenty of bone, length & frame that are ready to see good compensatory gain on improved pastures. This a good even line of weaner steers that will continue to grow out to good heavy feeders or Ox. In this lot buyers please note there are 3 x family marks on cattle but have all been bred on the property. Steers have no weight and are all frame for gain.
