| Assessor Comments             | A top quality line of soft crossbred heifers which were preg tested empty by GDVS. Majority of heifers were purchased from Hudson Family Maranoa Downs Mitchell. These heifers show a strong Limousin, Simmental and Angus influence. Balance of Droughtmaster influence showing Angus, Simmental, Limousin cross characteristics. Any straight Droughtmaster types were drafted out at purchase. Heifers are well grown and show very good bone and muscling. Heifers are doing very well now on good feed. These heifers would suit trade feeders or take through to heavy feeder weights. Would also make very heavy kill heifers on good feed. Come highly recommended. |                                           |                                     |
