Temperament

Yards	Crush	Paddock
Quiet: 28 head	Quiet: 25 head Slightly Stirry: 2 head Stirry: 1 head	Temperament not assessed in Paddock

Heifers were very quiet in all areas of the yards. Only two heifers did resent being in the crush but settled down very quickly once she exited the crush and back with the main mob. An additional heifer was stirry in the crush but absolutely no issue with her out in the bigger yards, just had a bad moment in the crush but could be because she resented being mouthed.

1 Head	Blue eye scarring both eyes (photo attached)
1 Head	Eye weeping and early stages of blight (photo attached). TREATED AT ASSESSMENT.
2 Head	Wart near the eye

Assessor Comments

Buyers, an attractive line of young heifers all pregnancy tested non-detectable. Heifers are in store to forward store condition and show plenty of quality. These will suit a to go to a bull again or to background to heavier domestic feedlot entry weights. Please note there are 72 additional heifers from this property in two lots that are all PTIC. Noted one heifer that has lost a tooth but there is definitely no eruption in the gum. Also another heifer that looks like she may have slipped a calf at some stage (see photo). Buyer can elect to reject her if required. As mentioned there was a heifer that looked to be on the verge of getting blight but she has been treated so should be right by delivery approx. 10 days away. If she develops pink eye she will also be discarded.
