Assessor Comments	A line of Angus & Ultrablack heifers presenting in store condition. These heifers are showing good frame for their weight and should offer good compensatory weight gains. The country they are running on has had good rain & is saturated & this is showing in these heifers. Access to harder feed with more nutritional value should see good results for prospective buyers. Heifers were good to handle in the yards at assessment with some stirring in the crush but settling immediately after. They were handled outside the yards with dogs with ease. Please note 3 heifers had slight blight scarring.
