Assessor Comments	A smaller line of light weight Vendor bred Angus weaner steers, that were bred on lighter Rocky River country (40km east of Tenterfield) and trucked to Vendor's Tenterfield property for weaning following assessment. Steers weighed from 150 - 205kg to average 175kg following a 14 hour dry curfew. Please make own assessment on weight loss for yard weaning, they will have access to lucerne hay. Cattle are generally worked with horses and dogs and were good to handle during assessment. Brother lot in same sale.
