Assessor Comments	A growthy line of quality Angus steers that are ideal feeders. These Gilmandyke Angus blood steers are quiet, well grown and on the push forward. Weight gain average on the OptiWeigh system shows a gain of 1.1kg/day in what was a tighter feed period over the later end of summer with a lack of rain. With plenty of compensatory gain to be made this line of Angus, they will make great feedlot or grass fed margin makers. Also in same sale 20 black baldy steers from same vendor.
