Temperament not assessed in Paddock

Heifers remained calm in the yards with their mothers outside in a holding yard and moved through the assessment process well. The odd heifer seemed flighty when moving them around the pen to be photographed. Being unweaned they will benefit from additional handling and education.

Assessor Comments

On offer is an outstanding line of 77 one-mark Angus heifer weaners. Heifers are 7-8 months old , out of Pardoo Blood cows by Argyle Angus bulls. These weaners are soft and very fresh with plenty of shape. This is the entire drop of heifers with only a handful of lighter calves removed presenting a great opportunity to purchase a genuine run of well-bred females that have not been picked through. All calves are still on their mothers and will be until delivery. Please note the vendor has the 82 steers offered in the same sale.
