| Assessor Comments | Extremely well-bred tops of the drop Angus Heifers, (non-retained) out of well-bred Cows, by stud Hazeldean & Alloura bulls. These Heifers are normally retained into herd program, with some being for a grass fed kill program and usually taken out to 600kg for slaughter at approx. 18 months of age, though this year are regrettably being sold due to dry seasonal conditions. These calves are extremely well handled, with emphasis on temperament and are yard weaned and up to date with animal health treatments. During the weaning process over 10 days calves were moved through yards and fed ryegrass and oaten silage and returned to paddock. Vendor also has one other lot in sale. Please note: Heifers are within a withholding. Vendor has one other lot in sale. |
