Assessor Comments	A line of Senepol cross cows and calves which have been run on light coastal country. All calves are sired by either sen-angus or angus bulls with all the male calves apart from 9 small calves being cut. These cows are all 1 brand and were originally purchased from a property at gin gin and have always been seasonal mated and selected on fertility and temperament. The calves range from 3 weeks old to 5 months, with the average of most of the calves being 1-2months. Please note there are 12 3 week old calves which are unbranded, the balance are marked. These cows range from small to large frame with the average being medium. Overall there utters are sound with 6 cows being larger in the front quarters. Please see videos and photos for more description and feel free to contact me to discuss further
