Assessor Comments

A good quality line of Santa/Droughtmaster X cows with the majority of the mob Ex Julia Creek, purchased in 2020. Cows have been good honest breeders for the vendor in this time and are only for sale due to the sale of the property. Majority of the cows are year branded 7/8 so still have a bit of life in front of them yet. Cows have been running on undulating traprock country, so should have the ability to perform in most types of country. These cows would suit potential buyers looking for a trade, or anyone looking to replenish breeder numbers. The odd cow has an old hip injury not deemed detrimental at assessment. This lot were station preg tested by Keiran Ried with the majority found to be in calf. However, they are not being sold PTIC so no pregnancy terms will apply. Please note the vendor has 3 other lots in the same sale.
