Assessor Comments	An opportunity to purchase a good line of young cows from one of the Northern Rivers most renowned Angus cow herds, boasting 39 years of Clunie Range blood. The vendor has retained a large number of heifers over the past few years and needs to destock a few numbers coming into winter. Cows would be an asset to any breeding herd and will commence calving in a months time. Buyers please note at assessment the odd cow was noted to have a blue eye and approximately 7 cows noted to have white underneath (on udders).
