	Quiet: 45 head Slightly Stirry: 1 head	Quiet: 43 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
Handled With	Heifers were easy to handled very well and flowed through the process with ease, cattle were well handled with dogs. Bikes , Dogs		
Notable Traits	Traits 3 Head Old pink eye scarring in one eye 4 Head White markings to navel. 9 Head white markings under udder region		
Assessor Comments	A great opportunity presents its self to Secure a line of quality well bred angus PTIC heifers that are one mark vendor bred heifers out of the quality breeding grounds of the New England. The larra cow herd is a foundation of Hazeldean Angus bloodlines that has a focus fertility, dyability and functionality with aim of the game of producing quality offspring to grow into feeder steers. Heifers are soft easy doing types that will grow into great future breeders. A great commercial article on offer that will be priced to sell, only due to being surplus to needs as a larger number of heifers were joined last year. Due to calve from Early August onwards for tight 6 week period to home bred AI sons of GAR Prophet and Ayrvale Bartel that are picked on LBW attributes. Heifers were easy to handle, Quality Future breeders not to be missed....
