3 Head	Gur neck

Assessor Comments 72 head of No 4 and No 5 Brangus / Angus Cross Steers. Please note the cream / yellow and dark grey steers have a strong Charolais / Charbray influence from the cows. 2 steers have slightly more tropical content in to make the truck up (photos in crush) and 3 steers have white spots / Gur necks. HGP FREE to suit all markets they will suit a back grounding operation to take through until feeders or bullocks, they are in a store but healthy condition ready to power away when they get some feed under them. Very quiet to handle and a pleasure to work with. Steers are in a tick infested area but with an on farm management plan, they will be cleared on farm by an accredited tick scratcher and with a back line at the vendors costs or will be guaranteed to clear at a clearance dip at the purchasers cost. Vendor also has 4 decks of bigger steers available at this same sale.
