Assessor Comments	Buyers, an opportunity to secure 51 Black females that have a reputation for performance, fertility and functionality. These females are bred from quality large frame Droughtmaster cows that have many generations of leading Droughtmaster genetics. They are sired by quality Angus bulls that were selected for structure, fertility & temperament. These heifers had a live weight range of 403kg - 506kg at assessment and will have a delivery weight of 430kg They are well grown females that have plenty of length, femininity & softness. Majority polled females with only 4 being scurred or horned these heifers would be ideal to join to the bull of your choice to make future breeders for any operation. The Denby cattle also have a solid reputation for performance & grading on grass & grain grids. They are TEYS GRASSLANDS ACCREDITED & have had 7 in 1 booster needle and three germ blood. Vendor has another 1 deck of Droughtmaster cross heifers in same sale
