These heifers worked well through the yards. A handful of heifers stirred up in the crush whilst being pregtested and mouthed but in general were very good to assess and settled quickly when let back to the mob.

Notable Traits

	Traits
1 Head	1 heifer was only just cracking 2 teeth

Assessor Comments	A very good line of 53 (2 Decks) Simmental and Angus cross heifers on offer. All heifers were mouthed to find only one heifer just cracking 2 teeth. Heifers all pregtested empty on the 13/05/2025 and were pre-treated with Bomectin to assist in delivery to tick free areas. This lot are presented very well with all heifers being in good forward condition, have good clean heads and being good to handle. These heifers would be ideally suited feed through to slaughter weights on either grass or grain but also have plenty of quality to join as future breeders.
