	The steers were good to handle in the yards. Two steers wouldn't stand still while in the crush and exited quickly. However, given that they have just come off the cows and have had limited handling throughout the yards they were generally good to handle.		
Handled With	Bikes , Vehicles		
Assessor Comments	A mostly good to very good quality line of Angus steers with three Angus Cross. Yard weaned at assessment, steers will be fed green barley & oaten hay and worked through the yards until delivery. Steers are out of PTIC Angus & Angus X cows purchased off AuctionsPlus in May 2024. Steers were assessed as Angus to suit major feedlot specifications, three head are displaying very slight greying in coat or have slightly red tinge. These steers would suit to take to feeder weights and finish on crop/grass for a range of high quality slaughter markets. Note one steer with blue eye scarring in both eyes and another with slight blue eye scarring on one eye. Steers have not had access to any grain or cotton seed.
