Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 43 head</td><td>Quiet: 38 head Slightly Stirry: 5 head</td><td>Temperament not assessed in Paddock</td></tr></table> The steers were good to handle in the yards. Five steers wouldn't stand still while in the crush and exited quickly. However, given that they have just come off the cows and have had limited handling throughout the yards they were generally good to handle. Assessor Comments	A mostly good to very good quality line of soft composite steers. Yard weaned at assessment, steers will be fed green barley & oaten hay and worked through the yards until delivery. Steers are out of PTIC cows purchased off AuctionsPlus. They are by Droughtmaster & Angus/Angus Composite bulls over Angus & Wagyu x Angus Cross cows. 70% Medium framed, 25% large framed and the remainder smaller. Note one steer with slight blue eye scarring in both eyes. These steers would suit to take to domestic or export weights and finish for a range of high quality slaughter markets. Steers have not had access to any grain or cotton seed.
