Assessor Comments	108 Vendor bred Angus Cross Wagyu steers. Strathroy's F1 program has been developed over 12 years to a full Rennylea, Te Mania & Lawson Angus cow base focusing on high IMF, resulting in a proportion of the cow base plus 4 for IMF. The entire herd is sired by 3D genetics wagyu which is recognized as one of the leading genetics in the feedlot industry. Don't miss the opportunity to secure some high performing genetics which don't usually go to the open market. The latest kill data averaged 6.9 for IMF. Steers are performing very well on pasture and have been very well handled, with only a 40kg weight split in draft. Please see attached sire details and the sisters are being offered in same sale. Buy with confidence.
