Assessor Comments	108 Vendor bred Angus Cross Wagyu heifers. Strathroy's F1 program has been developed over 12 years to a full Rennyalea, Te Mania & Lawson Angus cow base focusing on high IMF, resulting in a proportion of the cow base plus 4 for IMF. The entire herd is sired by 3D genetics wagyu which is recognized as one of the leading genetics in the feedlot industry. Don't miss the opportunity to secure some high performing genetics which don't usually go to the open market. The latest kill data, averaged 6.9 for IMF. Heifers are performing very well on pasture and have been very well handled and educated, the opportunity to secure future F1 NSM future breeders or grow to feeder with only a 30kg weight split. Please see attached sire details and the brothers are being offered in same sale. Buy with confidence.
