	For young cattle that had just been drafted off mum they handled very well. Handled well through the yards with no fuss and were happy to go up the race and be weighed. 1 got a little agitated in crush but very quickly settled once she was back with her mates.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	8 quality young Angus heifers that would suit either finishing for the trade or joining and breeding on with. Heifers are 10-11 months old and were weaned at assessment and will be yard weaned prior to delivery. Out of large frame Angus cows heifers will continue to grow out nicely if given the opportunity. Noticed 2 heifers had small patches of white on their udder area. Please see pictures for more info. Please note some heifers have mud on legs and underline that can be seen in video and pictures. At assessment heifers had a weight range of 260-376kg to avg 336kg. Vendor has 15 steer brothers in the same sale.
