Comment on Fat Score 1 Cattle: Heifers are fit to travel up to 1200 km from Richmond in one lift. A 12 hour spell is recommended at 800 km if travelling further then 1200 km in one lift. Heifers are in forward store condition and strong.

Vendor Bred: Yes

Stock History: Vendor has been using AJM composite bulls & Ultrablack. Composite includes breeds including Charolais, Senepol, Angus & Brahman. Moved from northern breeder country 800km to backgrounding property at Richmond to grow out as weaners straight off cows.

Lifetime Traceable: Vendor bred heifers, born on breeding property & moved to backgrounding property. Lifetime traceability may be compromised in the transfer process.

Bloodlines: Vendor bred heifers, out of Brahman cow herd base, Sired by Composite bulls that have 1/4 composition of either Charolais, Angus, Senepol over Brah

Grazing Conditions: Timbered forest country with areas of black soil country, pastured with a green body of Mitchell grass, Spear grasses & in season herbages. Used to grazing tree browse.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Chemical Residue	Nil
J-BAS Score	6

Vendor Comments	Sale due to a surplus to requirements. Heifers are a selection of composite and minimal hump heifers from a large herd. Mustered with Helicopters and motorbikes. Quiet to handle.

Temperament

Yards	Crush	Paddock
Quiet: 88 head Slightly Stirry: 18 head Stirry: 6 head	Quiet: 62 head Slightly Stirry: 40 head Stirry: 10 head	Temperament not assessed in Paddock

Good to handle in the yards. Tend to be slightly runny when moving in yards as opposed to walking. This mob generally has a good temperament as they settled down quickly after pressure handling, of yarding up, catching in head bale preg testing and weighing. In crush majority are quiet. This mob handle well in yards and paddock given appropraite space.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot

Notable Traits

	Traits
3 Head	Up to three head noted with light dog bite Shown in one of the pictures

Assessor Comments	A predominantly BLACK line of PTIC, #3 Crossbred, Flatback and small hump composite heifers. Joined to Composite bulls (mostly black composite Angus). All been pregnant tested in calf by Vet 5 months and advanced on 9/5/25. Suited to re-stockers or trading. 85% of this group are flat back with 15% showing slight signs of minimal hump. Of the small sample mouthed 2 teeth or less where noted. Heifers have moved to Richmond for fattening from northern breeder country as weaners late 2023. The heifers are in strong store to forward store condition & are healthy. Heifers have been bred for tropically adapted resilience & will perform well on all country. Used to eating tree browse. Mostly Medium frame with plenty of capacity yet to grow. All heifers display good to fair muscle & quality. Colours are 90% black & 10% brown. Not all calves are expected to be born straight coloured line black, however expected to have a flatback. These heifers will make excellent medium frame long term breeders
