2 Head	Very small active Pink Eye - will need treatment

Assessor Comments	A very good line of PTIC Angus, Angus cross heifers - 1 brand. Vet Preg Tested 5 to 7 months in calf. These heifers were purchased as not station mated but preg tested in calf. Previous vendor used Angus bulls. Approx 20 heifer have already calved unassisted and vendor is retaining any heifers over 7 months in calf. All calves on ground are by Angus bulls. Heifers are medium to good frame with 4 smaller heifers in mob. Heifers have very good temperament and show very good bone and type. These heifers would make a very good line of future breeders. Can add another deck of heifers more advanced in pregnancy to make up to 4 decks if required.
