Heifers are good to handle at assessment. When Heifers were given space or opportunity the Heifers would run or rush through gateways if they were not slowed down. There were 2 Heifers that did stir up once they were assessed and while they were separated and then once settled when they were in a bigger mob.

Assessor Comments Buyers a good line of Santa Heifers that are PTIC to LBW Angus Bulls. These Heifers present in good strong store condition and will grow out to be medium to large framed Cows. These Heifers are well bred being by the Gyranda and Strathmore Santa Bulls and originally being purchased from South Turrick ex Blackall district. Heifers would be a great asset for a breeding operation with their live ahead of them.
