Assessor Comments	Buy as a small lot but a good lot of PTIC Speckle Park proven young cows. These cows all reared their calf which were weaned Jan 2025. They were joined to JAD Razzamatazz R22 a leopard bull and have a confirmed preg test 7 plus months in calf. They were purchased as heifers from Trudi Tonkin (Inverell) who has a very reputable herd. Please note 2 cows seen with slight blue scaring in one eye, doesn't seem to affect sight. Cows are very quite and easily handled, vendor has been working cattle on his own on foot with no dogs or problems. They have been running on lease blocks with feed cutting out they are being offered for genuine sale.
