Temperament	

Yards	Crush	Paddock
Docile: 5 head Quiet: 10 head	Quiet: 15 head	Temperament not assessed in Paddock

All were brought up from the back yard by a single handler, and all led up the race well, just 2 getting a bit worried as they neared the crush (their last visit was for preg testing). Let down the lane way for photos, all very quietly & casually walking down, in no real hurry. Blocking up easy, photographing, then turning around & walking back into the yards. Very very quiet girls that were hand picked as the keepers & have had a lot of time put in to them, a credit to the vendors.

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	Nice line of 15 Vendor Bred Angus Heifers. These females were the genuine keeper heifers, joined up and to be kept within the herd, retaining only the first 2 cycles (or 5 weeks on vets advice) , only offered for sale due to the ongoing dry spell. All long bodied, true to type Angus Heifers that will grow out to be moderate framed, productive breeders. 9+ years of pure Crawford Angus Blood. Selecting sires for early growth & maternal attributes. Preg tested in calf to a L.B.W Crawford Angus Bull. Heifers are long, deep bodied, with a good square back on them and a pretty head. Just started to spring a Winter coat with the recent cold snap that's been through. These females will make a lovely line of heifers & calves in the Spring time.
