Assessor Comments	A well bred draft of Angus cows & calves offered due to deteriorating local seasonal conditions. This group of cows were originally retained as core breeders after selling down the herd last year. They are in healthy store to forward store condition and feature Rossander, Murdeduke & Ballangeich bloodlines. Cows are medium frame and better and are predominantly early to mid 600kgs when prime. Fresh calves at foot are sired by quality LKK Angus bulls. The Askew program traditionally markets quality Angus weaners to backgrounders and finishers with positive feedback from previous purchasers. These opportunities to acquire core breeding stock out of the renowned Western District area won't last forever. A chance to acquire well bred cows with quality calves at foot and ready to join.
