Assessor Comments	A very good to outstanding quality line of vendor bred, NSM, White Dorper Ewes (see age break up). Weighed 46 to 79 kgs to avg 60 kgs after a 6-hour curfew. Ewes are showing good fat cover, are healthy and fresh in condition after grazing in a Buffel paddock with herbages, etc. They are surplus to requirements and have had an obvious tail removed. Approximately 75% with docked tails. An ideal line for someone wanting quality White Dorper ewes from an accredited Brucellosis free flock. Obviously, ideal for meat works competition as all have good cover. See additional line of one yo's as well in the lamb sale.
