Ewes are broken up into 37% yellow tags, 44% red tag, 7% blue tag, 11% black tag. These proven breeders are being sold as the vendor is making a change in direction with livestock. sheep are large frame and lambs from these ewes are quick to fatten given the feed. These 3 and 4 year old ewes are only just getting into the prime of their life. dry ewes removed, all sheep present are lactating at time of assesment, a percentage of the ewes have had big lambs weaned off them recently so will dry up in the coming weeks and be ready to lamb down again in the following months.
