Notable Traits	Traits 1 Head Ewe observed with patch of old flystrike affected wool on rump
Assessor Comments	A quality line of young Yalgoo blood ewes SIL to White Suffolk rams to commence lambing late June. Ewes are rising 3 year old (red tags), are non-mulesed and present in strong healthy store condition ready to lamb. Ewes were shorn in early April cutting 3.7 kg of high quality 16.8 micron wool at 9 months growth. These ewes would be ideal to lamb out and split to take advantage of the strong lamb and mutton prices or ewes could be retained as future breeders. Don't miss this opportunity to purchase quality young ewes.
