| Assessor Comments                     | <b>** Flock Reduction**</b> 475 Primeline ewes, rising 6 years, all 189% scanned in lamb to Lambpro Sires as noted to lamb first week of July for 5 weeks (early & late lambers are identified). Terrific opportunity to secure classed in breeders that have been annually classed for fertility, structure and mothering ability. The Locke Family have been a part of the Lambpro Primeline Program since its commencement 20 years ago. 100% of these ewes have scanned in lamb each year since being joined as ewe lambs. Flock is based on Fertility & Growth, the 2 most important factors to a Crossbred Operation. Then most recently eating quality traits are being introduced with the use of Hampshire Downs, these lambs have been performing well in the Willowbend & Gundagai Lamb Programs. Locke Family is offering 2400 SIL ewes from 4-7 years all in same sale. |            |                        |
