Other Joining Details	Ewes have not been scanned but typically mark at 125% lambs to ewes joined.			
Assessor Comments	Dispersal of the Ulyatt family's Wiltipoll flock. Offering a neat draft of vendor bred, depastured Wiltipoll ewes. Ewes are well grown, presenting in strong order and have been joined to the Kalomera Wiltipoll rams to commence lambing start of July onwards. Note, these sheep still have tails. Mouthed 20 head of this draft and all were very good & sound (refer photo for example). A hard article to find, these sheep are genuine low maintenance with vendors never having to shear or crutch. They have not been scanned but vendor advised that they typically mark 125% to ewes joined. A chance to acquire well bred, shedding ewes that have had the chance to the ram. (Vendor offers entire flock, 160 ewes over two lots this sale)
