Assessor Comments	These are a very even line of Reiland Angus blood steers weighing 262kg full (226-292kg) at assessment. Normally grown out to feeder or kill weights, these steers are being sold early due to the season. They are in strong store condition and will show good compensatory weight gain on improved feed conditions. The temperament of these steers is a feature - all being easy to handle at assessment, being handled and fed regularly, and familiar with being around people. Please note: the vendor has 45 Angus heifers in the same sale.
